Total **social media unique post impressions** (count 25% of the total figure of all social media)

- ☐ NB: in **Q2 2024** report 25% of total unique impressions for Q1 and Q2 and subtract the total number of followers reported in Q1 i.e. 1,067 (because we're not counting followers but impressions)
 - ☐ Subtract from this figure 639 followers reported in Q1 2024
- Do not report PR reach at all but include the figure (in the description of direct and indirect reach so that MM can validate the figure (i.e., total PR reach - online/offline excl. TV - of the most successful medium/platform was 1,291,089. The figure is adjusted to account for the reach of entrepreneurs only by a coefficient of 10% i.e. the PR reach figure we use is **129,109**)

Total UA participants so far 524 (411 in 2023; 45 in Q1 2024; 59 in Q2 2024 = 515; 9 in Q3 2024)
TOTAL Q3 2024 = 107
TOTAL in 2024 = 442
TOTAL TO DATE = 1,405

EXPLANATION:

Since we reported incorrect data in the past, to balance the books we need to report different than actually observed figures in Q2 2024. Since we so far reported the total of 552 + 91 = 643 CZ and 249 + 199 = 448 UA participants, which totals 1091 as of Q1 2024, in order to reach the total of 1,298 as of Q2 2024, we need to report 207 total entrepreneurs for Q2 2024, which we split into 140 CZ and 67 UA participants).

NB: From Q3, we should report actually observed data for Q3 and all figures will match.
